

टोतो, ·पितो·, ·प्रितो·

Day 3

छोङ् - ‘business’

चोङ् - ‘fifteen’

- . टोतो - Without any tone dots we know that both of these words are LOW tone words. छ is the “tsh” sound and च is the “ts” sound in the Nyeshangte alphabet.
- . ·पितो· - Can you hear that both of these have the same tone? Now listen to how the beginning sound is slightly different in each word. Say both of these words outloud 3 times.
- . ·प्रितो· - Write these words 3 times. **Notice that छ in Nyeshangte is different from छ in Nepali.
